Subject: VMRC 26-0171 Project Loch

Hello,

We have received your application requesting authorization to develop a data center campus, including supporting site components, auxiliary structures, and stormwater management facilities in Chesterfield County.

Based on a review of your application, your proposal does not fall within the jurisdiction of the Marine Resources Commission; therefore, no authorization from this agency will be required.

For your information, you may need authorization from the Department of Environmental Quality and/or the U. S. Army Corps of Engineers prior to commencing your project. Your application has been forwarded to these agencies.

Please let me know if you have any additional questions.

Sincerely,

Bradley Reams

Environmental Engineer
Habitat Management
(757) 262-6448

NOTE: Effective September 1, 2025, the U.S. Army Corps of Engineers (USACE) became the clearinghouse and central point of receipt for all requests in the Commonwealth of Virginia (instead of the Virginia Marine Resources Commission) for submission of the Commonwealth's Joint Permit Application (JPA) or submission of their new national online application portal and management platform called the Regulatory Request System (RRS). RRS allows users to apply for individual and general permits from the Corps, DEQ, VMRC and the local wetland boards using online forms in lieu of the JPA. The system is designed to decrease permit processing time and is the Corps' preferred permit application process over the historical use of the JPA.

You may apply online to RRS at the following link:

<https://rrs.usace.army.mil/rrs> There is no link to the JPA in RRS. The RRS application process REPLACES the need for the JPA. You must login to RRS in order to submit a request.

Alternatively, you may submit a JPA once completed as a pdf to :

CENAO.REG_ROD@usace.army.mil The Corps will discontinue the JPA eventually, and you will be required to utilize RRS solely.

If you have questions regarding the shift to RRS please contact Barry Spence at barry.l.spence@usace.army.mil
